NATURE DISCOVERY CENTER, INC. NOTES TO FINANCIAL STATEMENTS

September 30, 2018 and 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed by Nature Discovery Center, Inc. are described below to enhance the usefulness of the financial statements to the reader. The objective of the organization is to ignite life-long curiosity, understanding, and respect for nature through education. Unlike the financial statements of profit-motivated entities, this report places primary emphasis on the stewardship and use of assets rather than income determination.

Reporting Entity

Nature Discovery Center, Inc. is a Texas Non-Profit Corporation incorporated in 1979. The organization operates exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code.

Basis of Presentation

The financial statements have been prepared in accordance with standards for not-for-profit organizations adopted by the Financial Accounting Standards Board. They are stated on the accrual basis of accounting whereby expenses are recorded when incurred, donations are recorded when notice is received, and grant revenues are recorded when earned.

Income Taxes

Nature Discovery Center, Inc. is exempt from Federal income taxes under Section 501(a) of the Internal Revenue Code. The Internal Revenue Service has determined that the organization qualifies as a public charity and is not a private foundation within the meaning of Section 509(a) of the Code.

Cash and Cash Equivalents

"Cash equivalents" are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash, and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates.

Donated assets and services

Donated fixed assets are recorded as revenue in the financial statements. Donated services are recorded as revenue only if the services require specialized skills, are provided by entities or persons possessing those skills, and would be purchased if they were not donated.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Depreciation and amortization of fixed assets

Fixed assets are recorded at cost as of the date of acquisition for purchased assets and fair value for donated assets. Depreciation is recorded using the straight-line method over the estimated useful lives of assets (5 to 10 years). Amortization of Leasehold Improvements is recorded using the straight-line method over estimated useful life of improvements (10 to 25 years).

The cost and accumulated depreciation of fixed assets sold or retired is removed from the related asset and accumulated depreciation accounts, and any resulting gain or loss is recorded in the period of disposal. Renewals and improvements that extend the useful lives of assets are capitalized at cost. Maintenance and repairs are included as expenses in the statement of activities.

Estimates

Management must make estimates and assumptions to prepare financial statements in accordance with generally accepted accounting principles. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, reported revenue and expenses, and the allocation of expenses among various functions. Actual results could vary from the estimates that were used.
